## Synthesize your structure with us!

We offer comprehensive collection of **Chemical Building Blocks** that includes:

**Chemical Building Blocks for prompt delivery** All compounds from this catalogue have undergone quality control to confirm their chemical structures and have purity higher than 95%.

**Virtual Chemical Building Blocks** These are chemically feasible compounds that could be synthesized and delivered within 4-12 weeks (this is estimated lead time which could be changed during the synthesis).

If you have not found in our collection a chemical building block you are looking for, you could **send us single or multiple structures for synthesis** right from our web-site.

Once your request is received, our specialists will be evaluating if synthesis of the required compound is feasible and we will get back to you shortly with our quote.

---

Feel free to contact me if you need more information. I am looking forward to your reply.

Best regards,  
**Andriy Dmytrenko, MBA**  
**Director of Business Development and Marketing**
